

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### **Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

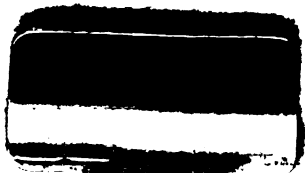

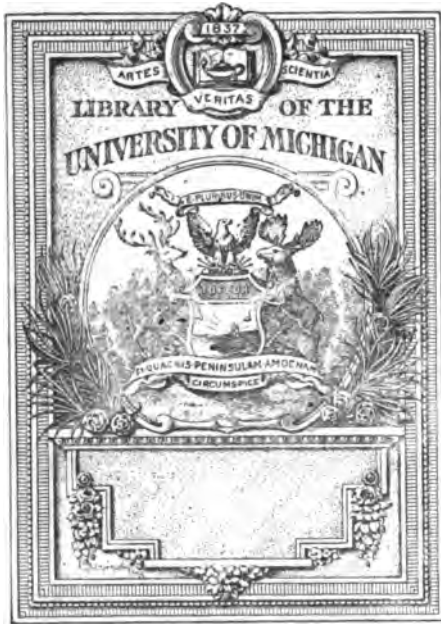

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### **About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## NOTES.

1. An asterisk (\*), as usual, indicates the decease of the person to whose name it is attached.

2. Wherever ascertainable full names are given; a middle letter, not followed by a period (.), indicates that there is nothing beyond the initial.

3. The title "Honorable" is given only to those who have held the positions of Member of the United States Congress, or of Governor, Lieutenant-Governor, or Speaker of the Assembly of the State of New York.

4. In the list of OFFICERS, biographical notes are appended solely to the names of those deceased.

5. In the list of **MATRICULATES**—which includes both Graduates and non-graduates—the names of recipients of degrees are printed in Small Capitals, and those of undergraduates now (June, 1878,) actually connected with the University in Italics.

6. In the same list the principal line comprises, (1). The name of the Matriculate; (2). The years of his attendance at the University; (3). The number of terms during which he was in attendance; (4). His course (or, in case of Graduates, his degree); and (5). His original residence. In the case of undergraduates now in attendance the date of matriculation is substituted for the years and terms, (2, 3).

7. The appended smaller type note contains such biographical information as has been gathered, which, if received at second-hand, is printed in Italics; in the case of previous attendance at another College the name of the college is given at the beginning of the note; and at the end is placed the post-office address of the Matriculate.

8. In the **INDEX OF RESIDENCES** a mark of interrogation (?) indicates that no recent authentic information concerning the place of residence has come to hand.

9. The following abbreviations are used :—

A.—Course in Arts.	L. in Sr. and Dr.—Licentiate in Surveying and Draughting.
Ag.— “ “ Agriculture.	M.—Course in Mechanic Arts.
Arch.— “ “ Architecture.	Math.— “ “ Mathematics.
Ch.— “ “ Chemistry.	Matr.—Matriculated.
E.— “ “ Engineering.	N.—Course in Natural History.
L.— “ “ Literature.	O.—Optional Course.
L. in Bot.—Licentiate in Botany	P.G.—Postgraduate Course.
L. in E.— “ “ Engineering.	Ph.—Course in Philosophy.
L. in Jour.— “ “ Journalism.	S.— “ “ Science.
L. in M. Dr.— “ Mechanical Draughting.	Vet.S.—Course in Veterinary Science.

10. Biographical data, changes of residence, titles and dates of positions held, dates and places of decease, and all other information concerning former students of the University should be addressed to **THE LIBRARIAN OF CORNELL UNIVERSITY, Ithaca, New York.**

## EXPLANATORY NOTES.

---

An asterisk (\*), as usual, indicates the decease of the person to whose name it is prefixed. Wherever ascertainable, full names are given; an initial not followed by a period denotes that there is nothing beyond the initial.

In the list of TRUSTEES biographical notes are appended solely to the names of those deceased who were members of the board by charter or election.

In the list of PROFESSORS, which includes Associate and Assistant professors, the professorships are arranged in general groups in the order of establishment. In each of these groups the order is strictly chronological, and the names of the professors of the general subject are followed by no qualifying word or clause, while subordinate rank is indicated by the words *Associate*, *Assistant*, etc. In this list also, biographical notes are given only in the case of those deceased.

The list of MATRICULATES includes both graduates and non-graduates, and is intended to give in all cases the record of study at the University, comprising the years and terms of attendance, the course pursued, or the degrees received, and the original residence of the matriculate. In the case of undergraduates in attendance in June, 1888, the years are enclosed within parentheses to indicate that the record is unfinished.

Besides the common abbreviations for degrees, the following are used to denote the various courses of study, etc.

A.—Arts.	M.—Mechanical Engineering.
Ag.—Agriculture.	Math.—Mathematics.
Arch.—Architecture.	Matr.—Matriculated.
C.—Civil Engineering.	M. P.—Medical Preparatory.
C. (following M. P., etc.)—Certificate.	N.—Natural History.
Ch.—Chemistry.	O.—Optional.
Ch.—Phys.—Chemistry and Physics.	Ph.—Philosophy.
Dr.—Drawing or Draughting.	Pharm.—Pharmacy.
E.—Electrical Engineering.	S., Sc.—Science.
Gr.—Graduate Student.	S.-L.—Science and Letters.
H.-P.S.—History and Political Science.	Sp.—Special student.
L.—Letters.	Sr.—Surveying.
Lic.—Licentiate.	V.S.—Veterinary Science.
Lit.—Literature.	

In the list of **MATRICULATES**, the names of graduates are printed in **heavy face** type and are followed by a note containing such biographical information as has been obtained in response to the circulars sent to all graduates. Where no reply has been received from living graduates, information obtained at second hand has been given, but such information is printed in *italics*. The biographical note is intended to give (1) colleges previously attended (in parentheses); (2) colleges attended after graduation at Cornell; (3) present profession or occupation; (4) official positions; (5) publications; (6) the present address of the graduate. Where the publications were numerous, only a few of the more important have been named. It is intended, however, to prepare a full Bibliography of publications by Cornell alumni, covering the period from 1868 to 1893—twenty-five years—and the replies to the circulars for the *Ten-Year Book* have supplied much material for such a bibliography. In order that the record may be made complete, all alumni are earnestly requested to send to the Librarian of the University the exact titles and dates, and, if possible, a copy of any books or articles they may publish.

Corrections of biographical data, changes of residence, titles and dates of positions held, dates and places of decease, and all similar information concerning the alumni should also be sent to the **LIBRARIAN OF CORNELL UNIVERSITY**.

## Prefatory Note.

---

The Third Ten-Year Book consists of four principal parts: (1) a list of officers of the University (together with Fellows and Graduate Scholars), with dates of appointment and retirement, (2) graduates arranged chronologically by classes, (3) a directory, or alphabetical list of graduates with addresses, (4) a geographical or locality index of graduates. To the whole is appended an index of University officers.

In the list of Professors, which includes Associate and Assistant professors, the professorships are arranged in general groups in the order of establishment. In each of these groups the order is strictly chronological, and the names of the professors of the general subject are followed by no qualifying word or clause, while subordinate rank is indicated by the words *Associate*, *Assistant*, etc.

In the list of graduates by classes, the name generally conforms with that on the diploma; but a few minor changes have been made, such as the substitution of "Henry" for "Harry". In the two other lists of graduates, the name more frequently conforms with that used in individual practice. Where a name has been changed by legal process, the former name is restored in brackets.

In the directory of graduates, the permanent (home, or parents') address has usually been given; while in the geographical index, compiled chiefly for the aid of alumni associations, the temporary address has more frequently been printed.

An asterisk (\*), as usual, indicates the decease of the person to whose name it is affixed. In the case of graduates, the effort has been made to secure a complete list of decedents, with the place

and time of death. In the case of University officers, no such effort at completeness has been made ; but information concerning the decease of officers has been furnished whenever it could be conveniently obtained.

A list of abbreviations of degrees will be found in the Summary Table on pages 103 and 104. It should be noted that in the case of graduates, only Cornell University degrees have been considered, while in the case of officers no such limitation has been made.
